What past Exhibitors have to Say...

“Participation in last year’s NJTC Venture Conference, and the award that we won really kick-started our year, which proved to be very successful on many fronts – financially, strategically and operationally. It was a great experience and AngelMed certainly got a lot out of it.” ~Andrew Taylor, Angel Medical Systems

“The NJTC Venture Conference has been an invaluable forum for TreadStone providing exposure to other small businesses, the venture funding community, angel investors, state government personnel and business support functions. The NJTC Venture Conference is an excellent forum to gain recognition that helps grow and expand your business. This will be our 3rd year exhibiting at the conference.” ~ Gerry DeCuollo, TreadStone Technologies, Inc.
